

# NOVÉ TRENDY kardiovaskulární medicíny

**14. března 2025**

Vienna House by Wyndham Diplomat Prague  
Evropská 370/15, 160 41 Praha 6

7.30–8.00 **Registrace**

8.00–8.10 **Zahájení**  
P. Ošťádal, Š. Černý

8.10–9.10 **ESC guidelines 2024**  
*Předsedající: P. Hájek, D. Vondráková, V. Puchnerová*

**Chronické koronární syndromy**

*P. Hájek*

**Hypertenze**

*D. Vondráková*

**Onemocnění periferních tepen a aorty**

*V. Puchnerová*

9.10–10.10 **Akutní a chronické srdeční selhání**  
*Předsedající: J. Bonaventura, T. Hnát, P. Ošťádal*

**Kardiogenní šok a mechanické podpory oběhu**

*P. Ošťádal*

**Jak zabránit rehospitalizacím?**

*T. Hnát*

**Možnosti léčby hypertrofické kardiomyopatie**

*J. Bonaventura*

10.10–10.40 *Přestávka*

10.40–11.40 **Akutní a chronické koronární syndromy**  
*Předsedající: P. Ošťádal, P. Hájek, P. Kala*

**Antitrombotická a hypolipidemická léčba**

*P. Ošťádal*

**ANOCA/INOCA**

*P. Kala*

**Vyšetření koronární mikrocirkulace**

*P. Hájek*

11.40–12.40 **Kardio-radiologie**

*Předsedající: L. Lambert, C. Štěchovský, V. Suchánek*

**Katetrová léčba plicní embolie**

*C. Štěchovský*

**CT srdce**

*V. Suchánek*

**MR srdce**

*L. Lambert*

12.40–13.30 *Oběd*

13.30–15.30 **Chlopenní vady**

*Předsedající: Š. Černý, H. Línková, M. Horváth, P. Kmoníček,  
A. Klváček, P. Hájek, R. Fiala*

**Moderní trendy v léčbě aortálních vad**

**Pohled kardiologa**

*P. Kmoníček*

**Pohled chirurga**

*A. Klváček*

**Moderní trendy v léčbě mitrální a trikuspidální regurgitace**

**Pohled kardiologa**

*M. Horváth*

**Pohled chirurga**

*Š. Černý*

---

**Infekční endokarditida**

*H. Línková*

**Onemocnění hrudní a břišní aorty**

*R. Fiala*

15.30–16.00 *Přestávka*

16.00–17.35 **Arytmologie**

*Předsedající: J. Honěk, L. Teplá Riedlbauchová, V. Durdil,  
H. Hnátová, M. Jenšovský*

**Fibrilace síní – Guidelines ESC 2024**

*M. Jenšovský*

**Katetrizační léčba arytmií – je všechno možné?**

*J. Honěk*

**Fyziologická kardiostimulace pro všechny?**

*L. Teplá Riedlbauchová*

**Náhlá srdeční smrt**

*V. Durdil*

**Kvíz na závěr**

*H. Hnátová*

17.40

*Večeře*

the 1990s, the number of people with a diagnosis of schizophrenia has increased in many countries (1).

There is a growing awareness of the need to improve the quality of life of people with schizophrenia, and to reduce the stigma associated with the illness (2). This has led to a focus on the development of self-help and recovery-oriented approaches to the management of the illness (3).

One of the key areas of research in this field is the development of self-help materials that can be used by people with schizophrenia to manage their symptoms and improve their quality of life (4). This paper reports on the development of a self-help manual for people with schizophrenia.

The manual was developed as part of a larger project to develop self-help materials for people with schizophrenia. The project was funded by the Department of Health and Social Services, and the authors are grateful to the funding body for their support.

The manual was developed in collaboration with people with schizophrenia, and their families and carers. The manual is designed to be used by people with schizophrenia who are taking medication, and who are experiencing symptoms of the illness.

The manual covers a range of topics, including: understanding the illness, managing symptoms, taking medication, and improving quality of life. The manual is written in a clear and simple style, and is designed to be easy to read and understand.

The manual is available in both printed and electronic formats. The printed manual is available from the authors, and the electronic manual is available on the authors' website. The authors are grateful to the people who have helped to develop the manual, and to the people who have used it.

The manual is a valuable resource for people with schizophrenia, and their families and carers. It provides practical advice and information that can help people to manage their symptoms and improve their quality of life. The authors hope that the manual will be widely used, and that it will help to reduce the stigma associated with the illness.

The authors would like to thank the following people for their help and support: the people with schizophrenia who helped to develop the manual, the families and carers who helped to develop the manual, and the people who have used the manual.

The authors would also like to thank the Department of Health and Social Services for their support. The authors are grateful to the funding body for their support.

The authors would like to thank the following people for their help and support: the people with schizophrenia who helped to develop the manual, the families and carers who helped to develop the manual, and the people who have used the manual.
